## AINUTLAATUIEN YHDISTELMÄ: KOMPAKTI PANELI- SAHA JA TARKKA LISTASAHA YHDESSÄ

The new KGSV 72 Xact SYM mitre saw is a mobile all-rounder for floorers: It is the world's only saw to combine the classic functions of a mitre saw with a symmetrically adjustable stop system. Thanks to this patent-pending combination, users can accurately cut panels and also skirtings. The user can saw accurate mitres quickly by transferring angles directly from the bevel without any calculating and measuring thanks to the symmetrically adjustable stop system. The saw is constructed with integrated traction bars that do not extend rearwards making it extremely compact and easy to transport. With its fine-toothed saw blade and traction function guided by bearings on both sides, it delivers precise cutting results in floor panels up to 305 mm, skirtings and aluminium profiles.

**Effective dust/chip extraction**  
via integrated  
dust/chip scoop

**Speed control** for extended range  
of application, e.g. for cutting  
aluminium profiles and plastics

**Time-saving and precise sawing  
of mitres** without calculating and  
measuring thanks to easy transfer of  
angles from bevel to stop system

Extremely compact thanks to  
**integrated traction bars**
